## INTERNATIONAL SEARCH REPORT

International application No.

PCT/AU2004/001456

	PCI	7AU2004/001456								
A.	CLASSIFICATION OF SUBJECT MATTER									
Int. Cl. 7:	G01N 33/68, A61K 31/00									
According to International Patent Classification (IPC) or to both national classification and IPC										
В.										
Minimum do	cumentation searched (classification system followed by classification symbols)									
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched										
WPIDS, C terms.	ta base consulted during the international search (name of data base and, where practicable, search tern A, Medline and keywords: effector and regulator cells, CD4, CD8, treatment, cance	ns used) r, virus and similar								
C.	DOCUMENTS CONSIDERED TO BE RELEVANT									
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.								
	WO 2002/013828 A (IMMUNAID PTY LTD.) 21 February 2002									
X	See pages 3-5, and the sections 'Agents which inhibit the production of and/or de regulator cells' and 'Timing of exposing the subject to the agent' and pages 9-13	estroy 1-6, 10-15, 20-30, 32, 35-44								
	WO 2003/068257 A (IMMUNAID PTY LTD.) 21 August 2003									
х	See page 3-5, sections entitled 'Agents which inhibit the production of, limit the function of and/or destroy regulator cells' and 'Timing of exposing the subject to agent' and Examples 2-5	1-3, 6-8, 10-16, 18-28, 32-44								
	NORTH, R. J. and AWWARD, A. (1990) Elimination of cycling CD4 <sup>+</sup> suppressor T cells with an anti-mitotic drug releases non-cycling CD8 <sup>+</sup> T cells to cause regression of an advanced lymphoma. Immunology 71: 90-95.									
X	See Abstract.	42, 43								
X Further documents are listed in the continuation of Box C X See patent family annex										
* Special categories of cited documents:  "A" document defining the general state of the art which is not considered to be of particular relevance  "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory										
"E" earlier interna	110deriving the invention									
or which	and is cited to establish the publication date of involve an inventive step when the document is com-	cument of particular relevance; the claimed invention cannot be considered to olve an inventive step when the document is combined with one or more other								
"O" docum	ent referring to an oral disclosure, use, exhibition	h documents, such combination being obvious to a person skilled in the art								
"P" docume	r means "&" document member of the same patent family ent published prior to the international filing date r than the priority date claimed	,								
Date of the act	ual completion of the international search  Date of mailing of the international search	report								
26 Novemb	er 2004 - 8 DEC 2004	. ,								
Name and mailing address of the ISA/AU Authorized officer
